# INDIRECT CUSTOMS CLEARANCE

The indirect customs representative acts in his own name but on behalf of his client during the customs clearance procedure.

In this case, the obligation to pay the customs duty is borne by the indirect customs representative, but our customs agency has an Import VAT Self-Assessment Authorisation, so the client does not have to pay the import VAT.

Where the customs clearance procedure is carried out by an indirect customs representative acting on behalf of the importer, the tax is paid by the indirect customs representative.

During the customs clearance procedure the VAT is indicated only for informative purposes and is not payable by the Supplier. The indirect customs representative company needs to handle it in its own system.

Based on this only the assessed duties are bound to be paid by the supplier. There are two options available to settle the payment of duties: based on the pre-calculation or based on the customs clearance resolution.
